DRIVER FRONTAL AIRBAG	NO	SIDE HEAD AIRBAGS	NO	ISOFIX ANCHORAGES	NO
FRONT PASSENGER FRONTAL AIRBAG	NO	DRIVER KNEE AIRBAG	NO	ABS (4 CHANNEL)	NO

ADULT OCCUPANT The protection offered to the driver head and chest was poor and for this reason the star capping was applied. Passenger's head protection was weak while chest protection was adequate. The front passengers' knees could impact with dangerous structures in the dashboard like the Tran fascia tube. The bodysell was rated as unstable and it was not capable of withstanding any further loadings.

CHILD OCCUPANT The child seat for the 3 year old child was unable to prevent excessive forward movement during the impact. The recommended CRSs did not show incompatibility. The installation instructions on both child seats were insufficient and not permanently attached to the seat. The vehicle was not equipped with a passenger airbag.
